Eye Massager :: BSV - 360

BSV Squirrel Presents

Eye Massager

BSV 360

This product is a multifunctional hi-tech device for healthcare of eyes. It can massage our temples fully. With the help of computer chip control technique, this product gives an all-way humanization simulated control. With a built-in-three-dimensional magnetic field, when you use your product, the constant movement of the field gives an effective massage to the main parts of the face and the muscles around the eyes, generating micro-current in blood vessels around the eyes and awaiting blood circulation.

Features :

Through different vibration, massaging, heating, BSV - 360 that adapts computer chip control technology and far infrared, can help increase oxygen supply, adjust functioning of ciliary muscle, improve blood circulation of eyes, relax the eyes and brain, promote metabolism and lessen the projection of the eyeballs with a built - in computer - controlled gas bag. The device also adapts different relaxing music, α brain wave music and natural music to activate the cells in the eye and brain.

Effect :

BSV 360 can prevent the happening and aggravation of myopia, pseudo myopia, lengthening and distortion of optic axis.

Applicable Group :

- People who suffer from myopia, astigmatism such students, even pupils.
- People who work with eyes used for most of the time, including computer operators, accountants, designers and engineers.
- People who suffer from pouch, black eye ring and eye wrinkle caused by tiredness, unsmooth blood circulation.
- People, especially the aged, suffering from insomnia, headache and presbyopia.
